

INOGEN ONE

Satellite Conserver

Achieve Even Greater Independence with the Inogen One Satellite Conserver

Inogen's innovative Satellite Conserver allows you to be up to 100 feet away from the Inogen One. That's because Inogen's Satellite Conserver takes control of the conserving function, eliminating the need for you to remain close to the concentrator. The Satellite Conserver then acts as a remote control to the Inogen One and can be discretely placed in a pocket, clipped onto a belt, or worn like a necklace.

The Satellite Conserver is sold separately from the Inogen One. To learn more about the Satellite Conserver or to purchase, contact your provider or call Inogen Customer Care toll free at **1-877-4-INOGEN (1-877-446-6436)**.
